Los 4 lados miden lo mismo y son paralelos dos a dos.

Se realiza trazando una curva que está siempre a la misma distancia de un punto que llamamos centro.

Es un polígono de 4 lados. Los lados opuestos son paralelos y de igual longitud.

Es un polígono de tres lados.

Figura de cuatro lados que tiene todos sus lados de una misma longitud.

Figura compuesta por seis bordes o lados y el mismo número de ángulos.

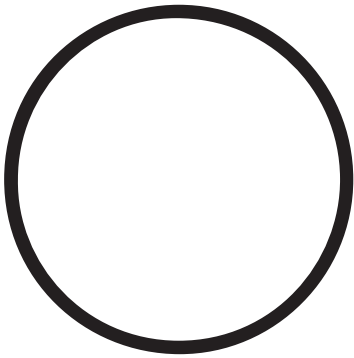

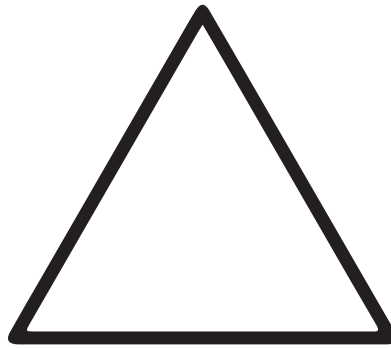

Figura compuesta por cinco bordes o lados y el mismo número de ángulos.

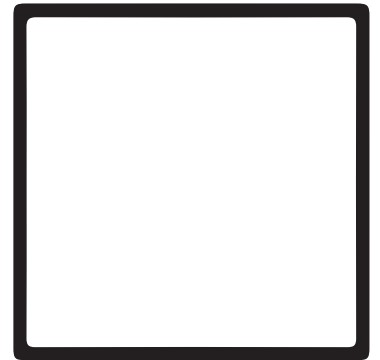

Cuadrilátero con un par de lados opuestos paralelos.

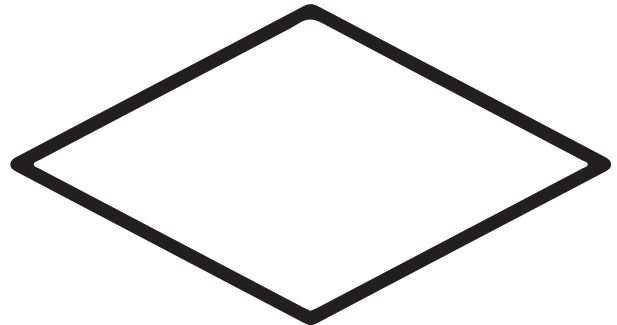

Colorea y escribe el nombre de cada figura.

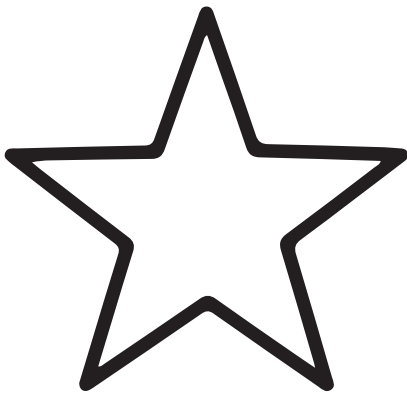

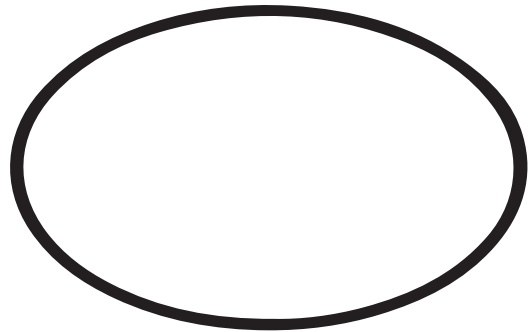

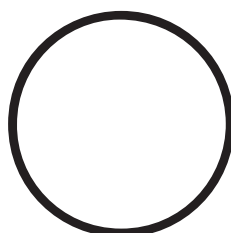

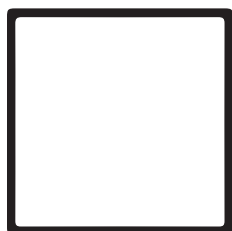

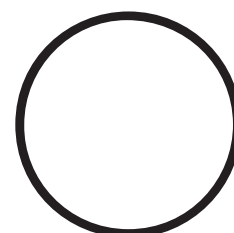

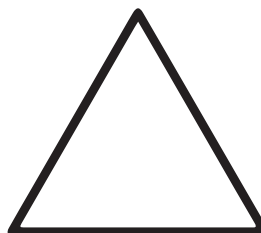

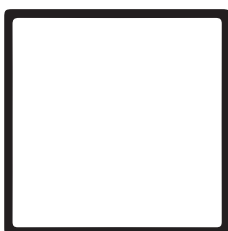

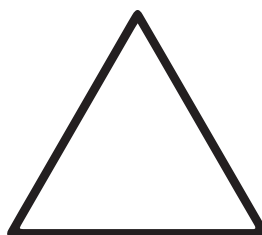

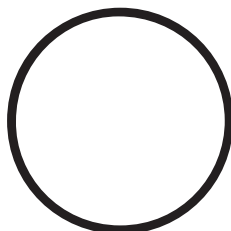

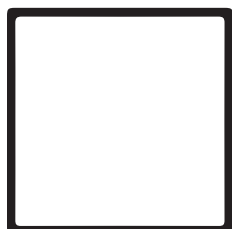

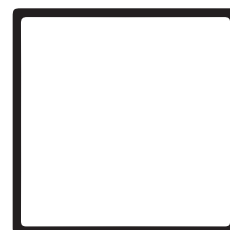

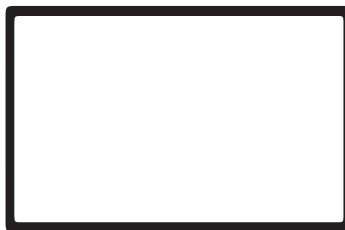

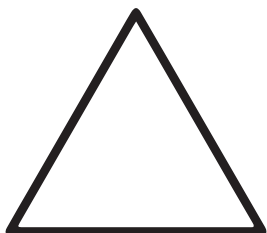

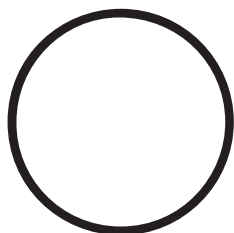

Colorea de rojo los círculos, de verde los cuadrados, de naranja los rectángulos y de azul los triángulos.

Colorea la opción correcta.
